## CIA IMAGERY ANALYSIS DIVISION

The following alphabetical designators are used to delineate functional areas within military installations.

- A. Billeting area
- B. Vehicle storage/maintenance
- C. General storage area
- D. Ammunition storage
- E. Miscellaneous (hospitals, prisons, POL, personnel training facilities and unidentified facilities)
- F. Small arms range
- G. Driver training area
- H. Support
- J. Tank/assault gun range
- K. Flat trajectory range
- L. Subcaliber range
- M. APC range
- N. Combined arms range
- P. Artillery training area
- Q. Infantry training area
- R. Special or unidentified area

- NOTE:
- 1. The absence of one or more alphabetical designators indicates that those functional areas were not observed at that particular installation.
  - 2. Lower case letters (i.e., Ba) are used to delineate more than one area of a particular functional category.
  - 3. Numbers are used with the alphabetical designators in some instances to identify vehicles or groups of vehicles within a functional area (i.e., Ba 1).

## CIA IMAGERY ANALYSIS DIVISION

OCCUPANCY AND ACTIVITY

The only buildings observed with some snow on the roofs are 8 vehicles sheds and 11 storage buildings. All barracks, quarters and administration buildings appear occupied. Vehicular and personnel scarring is observed throughout the installation.

PI REMARKS

Part of this barracks area is probably used for housing personnel from Stry Airfield as there are no other housing facilities of a military nature available in the area.

All measurements have been made by the CIA/IAD project analyst. They should not be construed as being mensuration data compiled by the NPIC Technical Intelligence Division.
